1. Identification of the substance / mixture and of the company / undertaking

1.1 Product identifier

Product name: Silver sulfate
CAS-No.: 10294-26-5
EC-No.: 233-653-7

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use: Laboratory chemical

1.3 Details of the supplier of the safety data sheet

Company: NETZSCH-Gerätebau GmbH
Wittelsbacherstraße 42
95100 Selb / Germany

Customer service Phone: +49 9287 881-555
Emergency Phone: +49 9287 881-174 (during office hours)
Fax: +49 9287 881-505
E-mail Address: service@ngb.netzsch.com

2. Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Eye Dam. 1 H318 Causes serious eye damage.
Acute aquatic toxicity, H400 very toxic for water organisms
Chronic aquatic toxicity, H410 very toxic for water organisms with long-term effect.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

The substance is classified and labelled according to the CLP regulation.

Hazard pictograms:

Signalword: Danger

Hazard statements:
H318 Causes serious eye damage.
H410 very toxic for water organisms with long-term effect.

Precautionary statements:
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Additional information: -
2.3 Other hazards

All chemicals are potentially dangerous. They are therefore only be handled by specially trained personnel with the necessary care.

Results of PBT- und vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

3. Composition / information on ingredients

3.1 Chemical characterization:

Substances

4. First aid measures

4.1 Description of first aid measures

General information: In case of ailments consult a physician. Show this safety data sheet to the doctor in attendance. Remove any clothing soiled by the product.

After inhalation: Move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

After skin contact: Wash off with soap and plenty of water. If skin irritation continues, consult a doctor.

After eye contact: Rinse immediately for 15 minutes with plenty of water with the eyelid held wide open. Seek medical advice.

After swallowing: Do not induce vomiting. Rinse out mouth and then drink water. Consult a physician. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described on the marking label (see section 2.2) and/or in chapter 11.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5. Fire-Fighting measures

5.1 Extinguishing agents

Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. CO₂ powder, foam or water spray.

For safety reasons unsuitable extinguishing agents: Do not use water jet.
5.2 Special hazards arising from the substance or mixture
In the event of fire development of hazardous combustion gases or vapours possible.

In case of fire, the following can be released:
Sulphure oxides, silver, silver oxide

5.3 Advice for firefighters
Protective equipment: Wear self-contained respiratory protective device.
Wear fully protective suit.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Avoid formation of dust. Provide for adequate airing.

6.2 Environmental precautions
Do not allow to enter sewers/ground water or penetrate the soil.

6.3 Methods and material for containment and cleaning up
Pick up mechanically.
Dispose of the material collected according to regulations.

6.4 Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7. Handling and storage

7.1 Precautions for safe handling
Handling corresponding to laboratory safety guidelines. Avoid dust and aerosol formation. Provide appropriate ventilation in dust formation.

Information about fire and explosion protection:
No special measures required.

7.2 Conditions for safe storage, including any incompatibilities
Requirements for safe storage, including any incompatibilities: No special requirements.

Information about storage in one common storage facility: Store away from foodstuffs.

Further information about storage conditions:
Protect from exposure to the light.
Storage class (TRGS 510): non-flammable solids
Preserve it in a cool and well ventilated place.
Keep the container tightly closed.

7.3 Specific end use(s)
No further relevant information available.
8. Exposure controls / personal protection

Additional information about design of technical facilities: No further data; see item 7.

8.1 Control parameters

Ingredients with limit values that require monitoring at the workplace: 10294-26-5 disilver(1+) sulphate

<table>
<thead>
<tr>
<th>WEL (Great Britain)</th>
<th>Long-term value: 0.01 mg/m³ as Ag</th>
</tr>
</thead>
</table>

Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls

Personal protective equipment:

General protective and hygienic measures: Do not eat, drink or smoke while working. Do not breathe dust. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Individual protection measures: -

Respiratory protection: Required when dusts are generated: filter P2 / P3. In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Protection of hands: Protective gloves: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Material: Nitrile

Eye protection: Tightly sealed goggles.

Body protection: Protective work clothing.
## 9. Physical and chemical properties

### 9.2 Other information

No further relevant information available.
10. Stability and reactivity

10.1 Reactivity
No information available.

10.2 Chemical stability
Thermal decomposition / conditions to be avoided:
Strong heating.
Thermal decomposition: 1085°C
Exposure to light
No decomposition if used and stored according to specifications.

10.3 Possibility of hazardous reactions
No information available.

10.4 Conditions to avoid
No further relevant information available.

10.5 Incompatible materials
Strong oxidizing agents.

10.6 Hazardous decomposition products
In case of fire: see item 5.
More information: is corrosive
As materials unsuitably: Aluminium, steel

11. Toxicological information

11.1 Information on toxicological effects
Acute toxicity
LD / LC50 values relevant for classification: Oral | LD50 | >5000 mg/kg (rat)

Potential health effects
Skin: Slight irritations.
Eyes: Strong irritant with the danger of severe eye injury.
Inhalation: No irritating effect.
Ingestion: May cause nausea and vomiting.
Sensitization: No sensitizing effects known.

CMR effects
Germ cell mutagenicity: No information available.
Carcinogenicity: IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

Reproductive toxicity: No information available.

Aspiration hazard:
No information available.

Specific target organ toxicity – single exposure:
No information available.
Specific target organ toxicity – repeated exposure:
No information available.

Further information:
The product should be handled with the usual care as necessary for chemicals.

12. Ecological information

12.1 Toxicity
Aquatic toxicity
Toxicity compared with fishing static test EC10 – Salmo trutta – 0.00019 mg/l – 217d
Toxicity compared with daphnia EC50 - Daphnia (water flea) - 0.004 mg / l - 48 h
and other invertebrates water animals

12.2 Persistence and degradability
Persistence: No information available.
Degradability: The methods for determining biodegradability are not applicable to inorganic substances.

12.3 Bioaccumulative potential
No further relevant information available.

12.4 Mobility in soil
No further relevant information available.

Ecotoxical effects
Remark: Do not allow to enter waters, waste water, or soil! Also not in tiny amounts

12.5 Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

12.6 Other adverse effects
No further relevant information available.

13. Disposal considerations

Waste treatment methods
Recommendation: Dispose of residual amounts and non-reusable solutions in accordance with local legal regulations. Waste code must be classified as hazardous.

Uncleaned packaging
Recommendation: Disposal same as for unused product.
14. Transport information

14.6 Special precautions for user

Warning: Corrosive substances.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

The cargo is not intended to be carried in bulk.

15. Regulatory information

15.1 Safety, health and environmental regulations / legislation specific for the substance or mixture

National regulations:
Information about limitation of use: In dealing with chemicals the national laws must be observed.
Waterhazard class: Water hazard class 3 (Assessment by list): extremely hazardous for water.

15.2 Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

16. Other Information

Guarantee
This information has been compiled to the best of our knowledge; however, we make no claim as to its completeness and it is meant to serve only as a guideline. NETZSCH-Gerätebau GmbH disclaims any liability for damages which may occur in handling or in contact with these chemicals.
