1. Identification of the substance / mixture and of the company / undertaking

1.1 Product identifier

Product name: Potassium chromate
CAS-No.: 7789-00-6
EC-No.: 232-140-5

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use: Laboratory chemical

1.3 Details of the supplier of the safety data sheet

Company: NETZSCH-Gerätebau GmbH
Wittelsbacherstraße 42
95100 Selb / Germany

Customer service Phone: +49 9287 881-555
1.4 Emergency Phone: +49 9287 881-174 (during office hours)
Fax: +49 9287 881-505
E-mail Address: service@ngb.netzsch.com

2. Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Muta. 1B          H340 May cause genetic defects.
Carc. 1B          H350i May cause cancer by inhalation.
Aquatic Acute 1   H400 (M=10) Very toxic to aquatic life.
Aquatic Chronic 1 H410 (M=10) Very toxic to aquatic life with long lasting effects.
Skin Irrit. 2     H315 Causes skin irritation.
Eye Irrit. 2      H319 Causes serious eye irritation.
Skin Sens. 1      H317 May cause an allergic skin reaction.
STOT SE 3         H335 May cause respiratory irritation.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

The substance is classified and labelled according to the CLP regulation.

Hazard pictograms:

Signalword: Danger
Hazard statements:

- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H335 May cause respiratory irritation.
- H340 May cause genetic defects.
- H350i May cause cancer by inhalation.
- H410 Very toxic to aquatic life with long lasting effects.

Precautionary statements:

- P202 Do not handle until all safety precautions have been read and understood.
- P261 Avoid breathing dust/fumes/gas/mist/vapours/spray.
- P281 Use personal protective equipment as required.
- P302+P352 IF ON SKIN: Wash with plenty of soap and water.
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P308+P313 IF exposed or concerned: Get medical advice/attention.
- P405 Store locked up.

Additional information: Restricted to professional users.

2.3 Other hazards

All chemicals are potentially dangerous. They are therefore only be handled by specially trained personnel with the necessary care.

Results of PBT und vPvB assessment

- PBT: Not applicable.
- vPvB: Not applicable.

3. Composition / information on ingredients

3.1 Chemical characterization:

Substances

- CAS-No. Description: 7789-00-6 potassium chromate

Identification number(s):

- EC number: 232-140-5
- Formula: $K_2CrO_4$
- Molar mass [g/mol]: 194.2
4. First aid measures

4.1 Description of first aid measures
General information: Consult a physician. Show this safety data sheet to the doctor in attendance. Remove any clothing soiled by the product. First Aider: Pay attention to self-protection!

After inhalation: Move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

After skin contact: Immediately rinse with water. Seek medical treatment in case of complaints.

After eye contact: Rinse opened eye for 10 minutes under running water. Then consult a doctor.

After swallowing: Rinse out mouth and drink a glass of water. Do not induce vomiting. Call for a doctor immediately.

4.2 Most important symptoms and effects, both acute and delayed
Allergic reactions: We have no description of any toxic symptoms. Hazards Danger of pneumonia.

4.3 Indication of any immediate medical attention and special treatment needed
No further relevant information available.

5. Fire-Fighting measures

5.1 Extinguishing agents
Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. CO₂ powder, foam or water spray.

For safety reasons unsuitable extinguishing agents: Do not use water jet.

5.2 Special hazards arising from the substance or mixture
In the event of fire development of hazardous combustion gases or vapours possible.

In case of fire, the following can be released:
Potassium oxides, chrome oxides

5.3 Advice for firefighters

Additional information: Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Prevent fire-fighting water from entering surface water or groundwater.
6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Avoid formation of dust.
Do not breathe dust.
Avoid contact with the eyes and skin.
Keep people at a distance and stay on the windward side.
Ensure adequate ventilation.
Wear personal protective equipment.
Evacuate the danger area, observe emergency procedures, consult an expert.

6.2 Environmental precautions
Inform respective authorities in case of seepage into water course or sewage system.
Do not allow to enter sewers/ground water or penetrate the soil.
Keep contaminated washing water and dispose of appropriately.

6.3 Methods and material for containment and cleaning up
Pick up mechanically (dust free)
Dispose of the material collected according to regulations.
Ensure adequate ventilation.

6.4 Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7. Handling and storage

7.1 Precautions for safe handling
Ensure good ventilation/exhaustion at the workplace.
Handle and open container with care.
Avoid contact with skin and eyes.
Handling corresponding to laboratory safety guidelines.

Information about fire and explosion protection:
Keep respiratory protective device available.

7.2 Conditions for safe storage, including any incompatibilities
Requirements to be safe storage, including any incompatibilities:
Prevent penetration into the ground.
Well-ventilated place.

Information about storage in one common storage facility:
Store away from foodstuffs.

Further information about storage conditions:
Store in dry conditions.
Keep container tightly sealed.

Recommended storage temperature: 15-25 °C
Storage class (TRGS 510): non- flammable solids
Acute toxic category 3/toxic or chronically acting hazardous material.

7.3 Specific end use(s)
No further relevant information available.
8. Exposure controls / personal protection

Additional information about design of technical facilities: No further data; see item 7.

8.1 Control parameters

Ingredients with limit values that require monitoring at the workplace: 7789-00-6 potassium chromate

<table>
<thead>
<tr>
<th>WEL (Great Britain)</th>

</tr>
<tr>
<td></td>
<td>Parameter: chromium</td>
</tr>
</tbody>
</table>

Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls

Personal protective equipment:

General protective and hygienic measures:
Do not breathe dust.
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work.
Store protective clothing separately.
Avoid contact with the eyes and skin.

Individual protection measures: Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of the hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the respective supplier.

Respiratory protection: Filter P3 (colour code: white)
Required when dusts are generated.

Protection of hands: Protective gloves:
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.
The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.
Material: Nitrile rubber

Eye protection: Tightly sealed goggles.

Body protection: Protective work clothing.
9. Physical and chemical properties

9.2 Other information

No further relevant information available.
10. Stability and reactivity

10.1 Reactivity
See section 10.3

10.2 Chemical stability

**Thermal decomposition / conditions to be avoided:**
No decomposition if used and stored according to specifications.

10.3 Possibility of hazardous reactions

**Strong reaction possible with:**
chlorates
Reducing agents

**Risk of ignition or formation of inflammable gases or vapors with:**
glycerol
organic combustible substances

**Exothermic reaction with:**
Sulphides

**Danger of explosion with:**
hydrazine and derivatives
hydroxylamine
oxidisable substances

10.4 Conditions to avoid

No Information available.

10.5 Incompatible materials

Organic materials, powdered metals, strong oxidizing agents.

10.6 Hazardous decomposition products

In case of fire: see item 5.

11. Toxicological information

11.1 Information on toxicological effects

**Acute toxicity**

LD / LC50 values relevant for classification:

- Oral | LD₅₀ | 180 mg/kg (mouse)

**Potential health effects**

- **Skin:** Irritant to skin and mucous membranes.
- **Eyes:** Irritating effect.
- **Inhalation:** Irritations in the respiratory tract, coughing, dyspnoea.
- **Sensitization:** Sensitisation possible through skin contact.

**CMR effects**

- Muta. 1B, Carc. 1B

- **Germ cell mutagenicity:** May cause genetic defects.
- **Carcinogenicity:** May cause cancer by inhalation.
- **Reproductive toxicity:** No Information available.
Aspiration hazard:
No information available.

Specific target organ toxicity – single exposure:
May cause respiratory irritation.

Specific target organ toxicity – repeated exposure:
The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Additional toxicological information:
We have no description of any toxic symptoms.

Further information:
Further hazardous properties cannot be excluded.
The product should be handled with the usual care as necessary for chemicals.

12. Ecological information

12.1 Toxicity

Aquatic toxicity

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

12.2 Persistence and degradability

Persistence: No data available.
Degradability: Methods for the determination of biodegradability are not applicable to inorganic substances.

12.3 Bioaccumulative potential

No data available.

12.4 Mobility in soil

No data available.

Ecotoxical effects

Remark:
Very toxic for fish.
Do not allow to enter waters, waste water, or soil!
Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Also poisonous for fish and plankton in water bodies.

12.5 Results of PBT and vPvB assessment

PBT: No data available.
vPvB: No data available.

12.6 Other adverse effects

No further relevant information available.
13. Disposal considerations

13.1 Waste treatment methods

Recommendation: Dispose of residual amounts and non-reusable solutions in accordance with local legal regulations. Waste code must be classified as hazardous.

Uncleaned packaging

Recommendation: Disposal same as for unused product.

14. Transport Information

<table>

14.6 Special precautions for user

Warning: Toxic substances.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

The cargo is not intended to be carried in bulk.
15. Regulatory information

15.1 Safety, health and environmental regulations / legislation specific for the substance or mixture

National regulations:
Information about limitation of use: Employment restrictions concerning pregnant and lactating women must be observed.
Employment restrictions concerning juveniles must be observed.

Waterhazard class: Water hazard class 3 (Assessment by list): extremely hazardous for water.

15.2 Chemical safety assessment
A Chemical Safety Assessment has not been carried out.

16. Other Information

Guarantee
This information has been compiled to the best of our knowledge; however, we make no claim as to its completeness and it is meant to serve only as a guideline. NETZSCH-Gerätebau GmbH disclaims any liability for damages which may occur in handling or in contact with these chemicals.
